Recorded with the help of Jacob Fader, leader of the Cleveland Afro-Pop group Mifune, who engineered and co-produced the recording *LEAVE A TRAIL* is a collection of 12 songs written by Jones in his trademark roots-reggae style, with inspirational messages woven throughout with his warm, compelling voice.

Carlos Jones & the PLUS Band - *LEAVE A TRAIL*

Carlos Jones & the PLUS Band has been one of the top regional draws over the last 5 years, performing at clubs, festivals, and concerts such as Cleveland House of Blues, Midwest Reggae Festival, Springfield (OH) Arts Festival, Nelson's Ledges Quarry Park, The Tall Ships Festival, and the Kneadmore Reggae Festival. The group attracts a widely diverse crowd, showing an almost universal demographic appeal. The group's first release – "**Roots With Culture**" saw modest success as the song "Torchbearer" was picked up by XM/Sirius Satellite Radio and broadcast to a national audience. The song was also licensed to and included in a college textbook (World Music: A Global Journey/Miller & Shahriari/Routledge Publishing). Jones also had one of his tracks included in the movie trailer for the recent Matthew McConahey movie, "Surfer Dude."

National publicity for the release is being coordinated by Fly on the Wall Media (Skatalites, David Grisman) with radio promotion to college and AAA stations handled by Tinderbox. The group will continue to tour regionally in support of the new release.
