*"You can't say enough about the strength of her pipes."
Robin Stone's Music Keeps Rolling ~Record Courier*

Robin Stone, after being voted in Scene Magazine reader's poll as Best Vocalist of 2009 and putting out her 5th record *Bad Girl* late that same year, brings us more product with *Robin Stone LIVE 2010*. This album is accompanied by a DVD that will be available towards the end of 2010 and was recorded for a television project in Cleveland, Ohio. The tracks on this effort are live versions of the popular songs from the recent *Bad Girl*, showing off the band's skills with their professional performance. The live record is meant to satisfy fans with "taking the experience" home with them. In the mean time, Stone is back in the studio working on a full album to be released in 2011, boasting some big things to be included.

"Singer-songwriter Robin Stone is like Cleveland's answer to Ani DiFranco: She is a righteous babe who has been fiercely independent throughout her career, now over a decade long." -Scene

Things to note
